

Karthik Kottugumada

Seattle, WA | 8327267887 | karthikkottugumada@gmail.com | karthikkottugumada.com | karthikkottugumada.medium.com

Software Development Lead with 10+ years of experience, who has a track record of success in delivering results, leading medium to large global teams, and providing workable scalable solutions

Accomplishments

- Led a team of 5 engineers that delivered one of the biggest changes in the Starbucks mobile order and payments system (revamping the Loyalty Points System). As a result of this change, the in-app purchases and number of new loyalty customers rose by 14 percent.
- Added the SQL Datawarehouse integration for Visual Studio IDE in my capacity as a Software Development Lead at Microsoft Corporation
- Built a resource contracting hub that serves as a single stop solution for any contractor onboarding for Microsoft Devices
- Leading the effort to integrate Frontier equipment return through UPS and USPS thereby making it easier for customers to return their equipment and saving the organization lost cost in unreturned equipment charges

Core Competencies

C#|Java| JavaScript| Typescript| Nodejs|.Net Framework|.Net Core| Azure| AWS| Kubernetes| Docker| Security | Distributed Computing | Vault| SQL| MongoDB| COSMOS| GraphDB| REST API | Graph QL| Cloud Computing | Distributed Systems | Cloud Application Development | Web Application Development | Service Bus

Leadership Principles

- Think Big and Go far
- Be the best version of yourself
- Clarify what's important, don't just share outrage
- Leave judgement behind and truly listen

Recommendations

Karthik was able to deliver enterprise level web applications using Angular and C# on top of the latest on Azure

Christian Osborn | Applied Data Scientist | Microsoft | Peer

Karthik helped oversee global and offshore efforts and effectively helped shape the program so that we exceeded expectations by delivering on time and on budget.
